About the canon

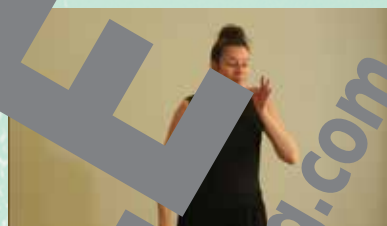

This canon conveys the theme of Spring. Not in a cheerful way, but in a longing and hopeful manner. Picking the flowers over and over again means trying to seize the moment and *carpe diem* – “pluck the day”. You can shape your own future and grow, and embrace everything on your journey and on your path.

C Performance

All movements in the instructional videos are mirrored which means that, for instance, our left arm is your right arm. In all the performance videos it is the other way around. The singers on the video show how your singers should perform.
